

Snow Advancement

I used this one in December just prior to Christmas.

Setup:

Instant snow can be purchased at www.SteveSpanglerScience.com.

Need bottle of instant snow, drinking glass, measuring spoon, water

Cubmaster:

Will the following scouts and their parents please come forward. (read names)

These boys have completed their requirements for the Wolf rank. To do this they have completed 12 achievements and have learned about our flag, their community, their body, cooking, duty to God and many other things.

Now, before they receive their rank awards, I'd like to try something. I was watching the weather report on TV last night and the weatherman said that we're not going to have any snow for Christmas. That made me kind of sad. I really think we should always have snow for Christmas. It can melt the next day, but on Christmas there should be snow. Since the weather isn't right for snow to fall from the sky, I'd like to see if we can make some.

I've heard that sometimes when a scout receives his rank, he can do magical things. So _____, I'd like you to make some snow for me. In this bottle is some ground up Wolf Bones. Go ahead and put a heaping spoonful into this glass. Now, I want you to think of your favorite thing you've done in scouting. Got it? Now, if you've truly done your best and completed all of your requirements, then you'll be able to do this with no problem. Think really hard about that favorite thing and pour this water into the cup.

Parents, please present your son with his Wolf Badge.

Scouts, please present your parent with their wolf pin.

Pack, please congratulate this scout with a loud Wolf Cheer.
